

Professor Ana Stavljenic-Rukavina, Ph.D.

Biography

Date and Place of Birth: 1939, Duga Resa, Croatia

Education:

- 1963. Zagreb University School of Pharmacy (Medical Biochemistry)
- 1968. Zagreb University School of Medicine
- 1971. Postgraduate study Lipid and Lipoprotein Metabolism at the Royal Postgraduate Medical School, London
- 1976. Postgraduate study Lipoprotein Molecule at the NATO Advanced Study Institute and Simon Stevin Institute, Brugge
- 1986. Postgraduate course Pathogenesis of Atherosclerosis at the Nato Advanced Study Institute and Fondazione Giovanni Lorenzini, Belgirate
- 1989. Study stay in the USA (Lipid Research Clinic, NIH, Bethesda; Department for Anthropology, University of Tennessee, Memphis; Department for Pathology and Department for Anthropology, University of Arizona, Tucson)
- 1979. Specialist examination in Medical Biochemistry

Academic Degrees:

- 1976. Ph.D.
- 1981. Assistant professor at the Zagreb University School of Medicine
- 1982. Associate professor at the Zagreb University School of Medicine
- 1985. Full professor at the Zagreb University School of Medicine
- 1990. Full professor at the Zagreb University School of Pharmacy and Biochemistry

Memberships:

- Croatian Medical Association: Croatian Society for Human Genetics
- Croatian Society of Medical Biochemistry
- Croatian Society for Mineralized Tissue
- Deutsche Gesellschaft für Klinische Chemie
- European Society for Human Genetics
- International Federation for Clinical Chemistry
- Croatian Academy of Medical Science (full member)
- Editor-in-Chief of Biochemia Medica
- Editorial Board of IL Friuli Medico, Alpe adria Journal of Medicine
- Chairman of Croatian Chamber of Medical Biochemists

Topics of Scientific Interest:

- Laboratory management
- Metabolic and hereditary disease
- Molecular biology methods and techniques in clinical biochemistry and hematology
- Evaluation of instruments and methods

Publications:

More than 190 papers, most of them in esteemed international journals cited in Current Contents, Excerpta Medica, Chemical Abstracts, etc.
